The Jefferson Health - Abington and Northeast COVID-19 testing centers are closed as of August 13, 2022.

Surgical and procedural patients requiring admission to Jefferson Abington or Lansdale hospitals will be COVID tested on the day of surgery. This means that physician offices and patients will not need to schedule pre-procedure COVID testing 2-3 days prior to the procedure for patients requiring admission

The Jefferson Health – Northeast: Surgical and procedural patients requiring post-procedure admission to Jefferson Bucks, Frankford or Torresdale hospitals will require a COVID test prior to surgery. Physician offices will attempt to facilitate pre-procedure COVID testing 2-3 days prior to the procedure through our pre-admission testing (PAT) process. Any patients arriving for surgery without a COVID result will be tested prior to the procedure.
